

60-  
up to 70% → Barnet & Chase  
activity  
goes to

Hertsmere Locality  
Practice Based Commissioning  
Plan  
2007-2008

Values  
The "Five C's"

- Community based & patient centred care
- Clinically effective services
- Collaboration
- Consensus
- Cost effective

Strategic Goals

- To improve care for local people through cost effective commissioning
- To improve access to services
- To involve local practitioners and patients in the design of services
- To have excellent facilities in which to provide local care

Commissioning Priorities 1

- Manage demand acute & elective care
- Develop enhance & robustly monitor CATS
- Cost effective prescribing
- Regular reviews quality & fitness for purpose of financial & activity data
- Acute Service Review
- 18 week wait

seen  
as  
way  
of  
delivering  
an  
oversight

puts them in good position  
to talk to others

Commissioning Priorities 2

- Community nursing resources
- MSK & Respiratory
- Review palliative care resources
- Mental Health
- Adapt national and local enhanced services to address local needs
- Improve OOH & unscheduled care arrangements

What might success look like?

- A relationship with the PCT & Acute Trusts which is a meeting of equals
- Clarity about what must be achieved and the important local goals
- Sound budget setting
- Mature performance management
- The 5 "C's"

also driven by high  
wage of Barnet & Chase

Potters Bar Bushey Borehamwood look at themselves  
locally each ~ 30,000 don't feel part of  
lower groups

Margaret Stockham

also working with acute trusts

### The first 3 months

- Shift from level 2+ to level 3 aided by the support of the managerial teams of Partners in Practice Ltd
- Defining managerial support
- Clarifying financial resources
- Innovation
- Collaborative work
- Refining CATS
- Supporting the PCT agenda

### The first 9 months CATS priorities

- MSK\*
  - Cardiology\*
  - Respiratory\*
  - Gastroenterology
  - Urology
  - Gynaecology
  - Neurology
  - Geriatrics
- \* scope for developing the services in partnership with local providers

up & running v successful  
good model to develop

scope to develop local providers with  
Herts

### The challenges

- A coherent approach in planning for service change
- Limited management resources must be well used / scope for collaboration between groups
- Supporting the group both by the PCT and externally

run @ Bamer & chase  
@ present - been univariate  
to allow consultants to work together to develop services

NS - CATS services will develop locally

ME - in all these specialties B+C  
very proactive to allow consultants to develop initially working outside work time now in work time

GR - how much decentralisation can do w/d. cost of Astices without destabilising
