

Practice Based Commissioning Web-based Consultation via your website

Making it easier to work together

Simplify the distribution of documents and the gathering of feedback by using our web-based tools:

- Allow all groups to easily access relevant documents
- Invite feedback with forums specifically designed for each group
- Simplify consultation by automating the process

Engage clinicians in the commissioning process

- Distribute up-to-date information and allow comment on proposals.
- Automatically inform clinicians of new information.
- Available 24x7 – allows contribution and feedback online at any time.
- Protect sensitive information with controlled access to documents.

Reach out to community groups, partners and stakeholders

- Use the web to encourage all groups to contribute and have their say.
- Actively seek feedback from community groups.
- Control which groups have access to documents and feedback forums.
- Provides evidence of public feedback and engagement.

Efficient use of your resources

- Engage specific public groups and allow feedback whilst reducing emails and meetings.
- Speeds up the consultation process.
- Saves time and resources obtaining feedback.
- Simplifies administration of feedback.
- A fully managed service – no training required.
- Full ongoing support.

Supports Multiple Groups

Including:

- Steering Group

Online Document Management

Online Feedback Forums

Custom Designed Website

All with advice and support whenever you need it

A Custom Designed Website

- Unlimited number of pages and documents.
- All updates are done for you – no training required.
- Proactive updating service.
- Fully hosted – no software or hardware to install.
- Simple flat annual fee so you know how much the service will cost.
- Support is just an email or phone call away.

Document Management System - Efficiently manage your information and keep all groups informed

The easiest way for you to share and retrieve documents amongst multiple groups

- Allow each group to access appropriate information on demand.
- You have control over who can access your documents allowing you to keep sensitive information secure.
- The document in/out feature ensures the latest documents are always accessible.
- Groups are kept informed of new documents as soon as they login.
- Add and remove documents as frequently as you need.

Discussion Forums - Keep groups involved

- Share, discuss and exchange ideas and information with different groups.
- Share ideas that are relevant to each group and invite feedback
- Keep people involved - input documents to the discussion and ask relevant questions.
- You have control over which groups can contribute to each discussion.
- All feedback can be downloaded as a single document for easy future reference.
