This LES proposal looks like a good idea. It fits in with the review of current LESs and therefore there is an argument that it needs to happen anyway and doesn't need to go to the governance committee anyway because it's not setting up a new service. There's no conflict of interest as far as I can see. So the only potential issue is affordability. It's for Dacorum to decide on their commissioning priorities as long as they

Stay within their total PBC budget
Achieve all national and local must-do targets

No objections.
