Dear GPs

We should like to invite all GPs to one of our Adastra training dates. You may feel that you would benefit from refresher training or would like to have a preview of the HUC Adastra screens/configuration which may well vary from the ones you currently use. We shall also include training on Adastra V3 Aremote (new from 1 Sept) which will be used in the cars for home visits.

Please reply to tony.beames@hertsurgentcare.nhs.uk with your preferred date.
