1. Introduction

- 1.1 The Booklet provides information on detentions under the Mental Health Act (MHA) 1983. People can be formally detained in hospital under various sections of this Act in the interests of their own health or safety or for the protection of other people.
- 1.2 There are three parts of the Act under which patients can be detained:
- civil detentions are made under Part II of the Act (Sections 2, 3, 4 and 5);
 - court disposals and prison transfers are made under Part III of the Act and relate to patients detained by direction of the court while on remand, or after conviction, or transferred from prison under warrant from the Home Secretary (Sections 35, 36, 37, 38, 44, 45A, 46, 47 and 48). Patients detained under section 37, 47 and 48 may also be subject to restrictions which require the Home Secretary to consent to leave of absence, transfer or discharge, except where a Mental Health Review Tribunal exercises a power of discharge.
 - Place of Safety orders under Part X of the Act relate to police powers to remove patients to a place of safety for assessment. These orders have a detention limit of 72 hours.
- 1.3 A Statistical Bulletin containing information on patients detained under the 1983 Mental Health Act in NHS hospitals, including high security psychiatric hospitals, and private mental nursing homes was published in November 2002. It contains analyses at England level together with commentary on trends and graphical presentations (see paragraph 4.3 for details of availability).
- 1.4 This Booklet's main purpose is to present the data provided by individual Trusts, Primary Care Trusts (PCTs) and Health Authorities (HAs). HAs used to collate returns for private mental nursing homes in their area. From April 2002 the National Care Standards Commission (NCSC) now performs this role. For convenience some of the England tables that were published in the Bulletin are repeated. There are also tables in which the data are presented at Regional Office (RO) area level. The Regional Office areas were abolished with effect from 1st April 2002.
- 1.5 Tables on formal admissions to hospital present data on patients detained under the Act at the point of admission to hospital. They do not however include transfers between providers if no change in legal status was involved. Changes from informal status to detention under the Act after admission to hospital are not included in tables on admissions but are presented in tables on changes in status after admission. Tables on use of Part II sections combine information on those detained on admission to hospital with that on those detained after admission to arrive at figures for total uses of these sections. There are also tables showing patients detained at a point in time (31 March); these data were collected for the first time in 1996-97.

1.6 The following table indicates where to find information on specific aspects at each level of aggregation:

	Admissions to hospital	Place of Safety orders	Changes in status after admission	Uses of Part II sections	Residents
All facilities					
England	Tables 1, 12	-	-	Table 13	Table 14
RO	Table 12	-	-	Table 13	Table 14
NHS facilities					
England	Tables 2, 12	Table 7	Table 4	Table 13	Tables 10, 14
RO	Table 12	Table 7	-	Table 13	Tables 10, 14
Trust/PCT/SHAs	Table 5	Table 7	Table 8	-	Table 10
Private facilities					
England	Tables 3, 12	not applicable	-	Table 13	Tables 11, 14
RO	Table 12	.	-	Table 13	Tables 11, 14
HA	Table 6	.	Table 9	-	Table 11

Trusts and PCTs that did not have detained patients during 2001-02 are not included in the Trust/PCT level tables. Annex A lists the Trusts and PCTs that existed in 2001-02 and indicates whether or not they had detained patients.

2. Mental Health Act 1983

2.1 A brief outline of the main sections of the 1983 Mental Health Act under which people can be formally detained in hospitals is given below.

Part II admissions

2.2 Part II of the Act allows a patient to be compulsorily admitted under the Act where this is necessary:

- In the interests of his/her own health or

- In the interests of his/her own safety or
- For the protection of other people.

The relevant sections are:

Section 2: admission to hospital for assessment

Section 3: admission to hospital for treatment

Section 4: admission for assessment in emergency

Section 5(2): power to hold informal patients already in hospital

Section 5(4): nurses six-hour holding power on an informal patient already receiving treatment for a mental disorder

- 2.3 Sections 4 and 5(2) have a detention limit of 72 hours, and cannot be renewed. Section 5(4) has a detention limit of 6 hours and cannot be renewed. Section 2 has a detention limit of 28 days after which a person becomes an informal patient unless detained under Section 3. Section 3 allows for detention up to 6 months, after which the order can be, renewed for a further six months and then for one year at a time.
- 2.4 Sections 5(2) and 5(4) do not appear in tables on formal admissions to hospital since they can only be used for patients already in hospital on an informal basis.

Admissions following court disposal or prison transfers:

- 2.5 Part III of the Act relates to people involved in criminal proceedings. The relevant Sections are:

Section 35: accused person remanded to hospital for report

Section 36: accused person remanded to hospital for treatment

Section 37: convicted person sent to hospital for treatment (called a hospital order) - either with or without a restriction order under Section 41

Section 37(4): convicted person detained in a place of safety pending admission to hospital under a hospital order

Section 38: convicted person sent to hospital for assessment prior to sentencing

Section 44: Section 37 patient committed to hospital by a magistrates court pending a crown court hearing for restriction order

Section 45A: sentenced person given a hospital direction with restriction under Section 41

Section 46: detained during Her Majesty's pleasure (following Armed Forces Court Martial)

Section 47: prisoner, serving a sentence, transferred from prison to hospital - either with or without a restriction direction under Section 49.

Section 48: prisoner, not sentenced, transferred from prison to hospital - either with or without a restriction direction under Section 49.

2.6 Sections 35 and 36 have a detention period of 28 days and can be renewed for two further periods of 28 days - 12 weeks in total. Section 37 is renewable after 6 months, while Section 38 cannot be renewed beyond a period of 12 months. Section 37(4) lasts for a maximum of 28 days.

2.7 Section 37 patients with Section 41 restrictions and Section 47 and 48 patients with Section 49 restrictions do not have their detention renewed. They are subject to continuous detention until such time as they are either discharged or, in the case of Section 45A, 47 and 48 patients, they are returned to prison or come to the end of sentence.

Place of Safety detention

2.8 Part X of the Act gives the police powers to remove a person who appears to be mentally disordered to a place of safety for an assessment by a doctor and an approved social worker. The relevant Sections are:

Section 135: warrant to search for and remove a patient to a place of safety

Section 136: removal by police from a public place to a place of safety

2.9 Sections 135 and 136 have a detention limit of 72 hours, and cannot be renewed.

After care under supervision

2.10 The Mental Health (Patients in the Community) Act 1995 introduced a new power of after care under supervision (Section 25A) which came into force on 1 April 1996. After care under supervision applies to patients discharged from detention under Sections 3, 37, 47 or 48 who present a substantial risk of serious harm to themselves or other people unless their care is supervised.

Other Acts

2.11 The Mental Health Act Inquiry also collects information under Other Acts. These include Criminal Procedure (Insanity and Unfitness to Plead) Act 1991, Section 47 of the National Assistance Act 1948, Sections 1, 2 or 12 of the Children and Young Persons Act 1969,

Children Act 1989, and Section 3 of the Powers of Criminal Courts Act 1973.

Category of disorders

- 2.12 A category of disorder - mental illness, psychopathic disorder, mental impairment or severe mental impairment - is assigned to each person detained under the Act except those detained under Sections 5(2), 5(4), 135 and 136. Also, for Sections 2 and 4, a general diagnosis of "mental disorder" (i.e. potentially any one of the four disorders) will suffice. In the statistics in this volume, category of disorder is shown as 'not specified' for admissions under Sections 2 and 4.

3. Returns used and institutional information

NHS hospitals

- 3.1 Up to 1986, statistics on formal admissions to NHS hospitals and units were collected by the Mental Health Enquiry (MHE) from all psychiatric hospitals, including high security hospitals, on a calendar year basis. From 1 April 1987, following the Körner review of health service information, statistics on formally detained patients admitted to NHS facilities and NHS patients using non-NHS facilities under contractual arrangements (as authorised under Section 23 of the NHS Act 1977) were collected on the aggregate return, KH15, on a financial year basis. The return KH16 collected information on changes in legal status. These two returns were replaced in 1996-97 by a new return, KP90 (see para 3.6 below).
- 3.2 NHS Trusts complete returns on their own behalf. Up to 1993-94, the returns for Directly Managed Units (DMUs) were completed by District Health Authorities (DHAs) who also provided information on NHS patients using non-NHS facilities. From 1994-95, DMUs completed their own returns so in principle no information on NHS patients in non-NHS facilities was collected for 1994-95 and 1995-96 but in practice it is known that some of these patients were recorded on KO37. The return was replaced in 1996-97 by a new return, KP90 (see para 3.6 below).

Private mental nursing homes – Independent Hospitals

- 3.3 Private mental nursing homes authorised under Section 23 of the Registered Homes Act 1984 to detain patients under the provisions of the 1983 Mental Health Act are registered separately from other private mental nursing homes. Formally detained patients admitted to them are subject to the provisions of the 1983 Mental Health Act described above.
- 3.4 Up to 1986 calendar year figures were obtained from DHAs using return SBL631. Following the Körner review, this form was replaced by return KO37 which covered admissions in the financial year. KO37, later replaced by KP90, excluded patients treated under contractual arrangements with the NHS who were formerly included on SBL631.
- 3.5 From 1 April 2002, the National Care Standards Commission (NCSC) took over responsibility

from the Health Authorities to provide data for Private mental nursing homes authorised under Section 23 of the Registered Homes Act 1984 to detain patients under the provisions of the 1983 MHA.

High security psychiatric hospitals.

3.6 The three high security psychiatric hospitals are Broadmoor, Ashworth and Rampton – Ashworth Hospital was created on the amalgamation of Park Lane and Moss Side Hospitals in February 1990. The high security hospitals were administered directly by the Department of Health up to September 1989 and then by the Special Hospitals Service Authority up to March 1996. Figures for the high security hospitals were provided directly to the Department by the Special Hospitals Service Authority. From April 1996, new arrangements for the funding and management of the high security hospitals were introduced and the High Security Psychiatric Services Commissioning Board (HSPSCB) was formed within the NHS Executive. At the same time, each of the high security hospitals became a special health authority in its own right. Data on detained patients were supplied directly to the Department by each of the three special health authorities on the new return KP90. The HSPSCB finished in March 1999 but the NHS Executive Team supporting the HSPSCB continued to operate until it was dissolved in March 2000. From April 2000, funding for high security psychiatric services was devolved to Health Authorities, and Regional Specialised Commissioning Groups took over responsibility for commissioning high security psychiatric services. From 1 April 2001, Broadmoor Hospital became part of the West London Mental Health NHS Trust and Rampton Hospital became part of the Nottinghamshire Healthcare NHS Trust. Ashworth Hospital became part of the Mersey Care NHS Trust with effect from 1 April 2002. The relevant Trusts provide data on the 3 hospitals on form KP90.

3.7 A copy of KP90 is shown at Annex B.

4. Other Information and Notes

4.1 A statistical bulletin 'Statistics of Mentally Disordered Offenders, England and Wales' is published annually by the Home Office. This presents information about mentally disordered offenders who were detained in, or discharged from, hospital and were subject to restrictions on discharge under Part III of the Mental Health Act 1983 or the Criminal Procedure (Insanity and Unfitness to Plead) Act 1991. The latest bulletin relates to patient movements up until the end of 2001 (bulletin reference 13/02). Copies of that publication are available from:

Home Office
Research, Development and Statistics Directorate
Communications Development Unit
Room 275
50 Queen Anne's Gate
London SW1H 9AT
(Tel: 020 7273 2084)

Any questions concerning the data contained in this publication should be addressed to Ricky Taylor (Tel: 020 7273 3452), Offenders & Corrections Unit at the above address.

- 4.2 It should be noted that the figures in the Home Office publication are not strictly comparable with figures in this Booklet for a number of reasons. The Home Office figures relate to England and Wales and are based on calendar years whereas the figures in this publication are for England and are on a financial year basis. In addition, there are a number of definitional differences between the two data sets.
- 4.3 Copies of the statistical bulletin 'In-patients formally detained in hospitals under the Mental Health Act 1983 and Other Legislation, England: 1991-1992 to 2001-2002, (ref 2002/26) are available from:

Statistics Division 2C
Department of Health
Room 430B
Skipton House
80 London Road
London SE1 6LH
(Tel 020 7972 5548)

- 4.4 Any questions concerning the data contained in this publication should be addressed to Paul Thatti (Tel: 020 7972 5546), room 430B at the above address.
- 4.5 Brief extracts from this publication may be produced provided a reference is given.
- 4.6 In the tables:

'-' denotes nil'

'.' denotes not applicable

In general, because of the small numbers in these tables, the figures have, for convenience, been quoted to the last digit; this does not imply that the data are correct to this degree of accuracy.

		Mental category and sex of patient										Total	
		Mental Illness		Psychopathic Disorder		Mental Impairment		Severe Mental Impairment		Not Specified		Male	Female
		Male	Female	Male	Female	Male	Female	Male	Female	Male	Female	Male	Female
Patients detained under the Mental Health Act 1983 or other acts.	01												
Informal Patients	02												
Total (detained and informal)	99												

- This return should be completed to provide information about the uses of the Mental Health Act 1983 (except guardianship cases under Sections 7 and 37) and other legislation, for the year ending 31 March 2002.

Part 1 requests the type of unit or trust making the return.

Part 2 requests the number of admissions to hospital during the year, by legal status, sex and mental category.

Part 3 requests the number of changes in legal status during the year while patients are in hospital or at the point of discharge, by type of change.

Part 4 requests the number of informal and detained patients resident as at 31 March 2002, by legal status, sex and mental category.

- A return is required from each Health Authority (HA), Special Health Authority (SHA), Primary Care Trust (PCT), Health Partnership and NHS Trust. HAs should return a single form for all the private mental nursing homes registered with them; this should not include data for NHS Trusts.
- Those patients who are transferred between hospitals/sites/wards/consultants and whose legal status remains the same, should NOT be recorded on either Part 2 or Part 3 of this form.
- A "NIL" should be returned whenever applicable.
- The return should be received by the Department of Health no later than 28 June 2002.

Advice on how to complete the form is given below.

Page 1 - Organisation details

- (1) Enter the HA, SHA, PCT, Health Partnership or NHS Trust code. This will be the Organisation Code published by the DH.
- (2) Enter the organisation name.
- (3) Enter the name of the person who can be contacted should there be any queries regarding completion of the form.
- (4) Enter the telephone number of the contact including extension if appropriate. Enter the fax number if available.
- (5) Enter any additional information. For example reasons for large differences from data supplied by the unit or trust in earlier years, or explanations of any figures that appear unusual or fail validation tests.

Page 2 - Part 1 (Type of unit or trust)

- (6) Tick the appropriate box. Each return should relate to either NHS facilities or private mental nursing homes registered to detain patients under the Mental Health Act 1983.

Page 2 - Part 2 (Admissions)

This part is to record the legal status of patients at the point they are admitted to hospital (though note points on transfers and place of safety orders below). Lines 01-15 on the table relate to sections in the Mental Health Act 1983 legislation . Line 16 relates to patients detained under other Acts. Line 99 records the totals of rows 0-16. Column headings relate to Category of Disorder under the MHA.

Total number of informal male and female admissions under psychiatric specialties (i.e specialty codes 700, 710, 711, 712, 713, and 715) should be included at line 17.

Points to note:

- Include all admissions of patients to hospital during the course of the financial year, regardless of whether they have been subsequently discharged. Patients transferred between hospitals/sites/wards/consultants and whose legal status remains the same should not be regarded as an admission for the purposes of this return.
- Changes in legal status while in hospital from informal to detained are included in Part 3, they should not be counted as admissions.
- Although patients brought to hospital under Sections 135 and 136 of the Act are not technically admissions under the Act, they should nevertheless be recorded on this part of the return in order to obtain a full record of the uses of the Act. However only patients for whom the place of safety was the hospital should be included.
- "Other Sections" includes Sections 38, 44, and 46 only.
- "Other Acts" includes Criminal Procedure (Insanity and Unfitness to Plead) Act 1991, Section 47 of the National Assistance Act 1948, Sections 1, 2 or 12 of the Children and Young Persons Act 1969, Children Act 1989, and Section 3 of the Powers of Criminal Courts Act 1973.
- As Section 35 does not require a firm diagnosis, only insert the mental disorder if known. If not, record as "not specified".
- The shaded boxes should not be completed.

Consistency checks - please ensure that:

For all columns, line (99) = total of lines (01) to (16)

For lines 01-16 and 99, column (17) = total of columns (7), (9), (11), (13) and (15).

For lines 01-16 and 99, column (18) = total of columns (8), (10), (12), (14) and (16)

For columns (17) and (18), line (999) = total of lines (99) and (17)

Page 3 - Part 3 (Changes)

For each change of legal status described enter the number of changes during the year in column 19.

- Changes from Section 135 or 136 refer only to those patients whose place of detention was initially a hospital.
- Sections that have lapsed and discharged patients should be recorded as a change to informal status.
- All changes not specifically described, and which are listed at Part 1 on the attached sheet, should be included in the 'All other changes' row (code 27). Changes listed at Part 2 on the attached sheet, **should not** be included.

Consistency check:

Please ensure that the number for the 'Total' = the sum of the lines (codes 01-27).

Page 3 - Part 4 (Residents)

Line 01 relates to detained patients resident at 31 March 2002 by Category of Disorder.

- Each patient may only be assigned one mental category even though more than one category may apply. In those instances where a patient falls into more than one mental category, the principal category should be recorded on this return.

Line 02 relates to informal patients under the care of psychiatric specialties (i.e specialty code 700, 710, 711, 712, 713, and 715) resident at 31 March 2002.

- The shaded boxes should not be completed.

Consistency checks - please ensure that:

For columns (30) and (31), line 99 = total of lines (01) and (02).

For line (01), column (30) = total of columns (20), (22), (24), (26) and (28)

For line (01), column (31) = total of columns (21), (23), (25), (27) and (29).
